### Recommendation 7

The Rochford Review recommends that where there is demonstrable good practice in schools, those schools should actively share their expertise and practice with other schools and that schools in need of support should actively seek out and create links with schools that can help to support them.

**Collaborate, support each other and share best practice and make our provision in Swindon something special to help our young people enjoy, achieve and be the best that they can be.**

**Thank you! 😊**

**Happy collaboration!**
